

Sewerage & Stormwater Drainage Bilaspur City, India

Water, Waste Water & Environment

The Demand for clean, safe drinking water and efficient wastewater services has never been greater. At Meinhardt, our knowledge, experience and expertise spans the entire water cycle, from 'cloud-to-coast'.

Global Experience

Water distribution and waste treatment is pertinent in any country. No matter the project location, we emphasise on synchronizing the infrastructure we plan and design with the environment.

Through embracing sustainability in our planning and development of these facilities, we have engineered many plants which are not only efficient and effective but also sustainable and in harmony with the environment.

At Meinhardt, we take pride in our ability to tailor solutions to fit our Client's needs. Our water specialists have the knowledge, skills and capability to support Clients at both the strategic and tactical levels regardless of whether the need is consultancy services, hands-on support to augment and assist existing teams or as a contracted service provider.

Our Water Capabilities:

- Waste Management
- Water Supply Management
- Utilities
- Environmental Impact Studies
- Environmental Management Plans
